Requests relating to other IETF-created registries for which the request rate is more than five per month (l) .....	8
Deliverables .....	10
Provide publicly accessible, clear and accurate periodic statistics.....	10
Track and publicly report on a monthly basis (monthly report).....	11
Conclusions.....	11

## **Executive Summary**

This monthly report provides statistical information of the IANA Services operations as they relate to the IETF. Also included are the deliverables for this reporting period in accordance with the Supplemental Agreement (SLA) between ICANN and the IETF LLC with the effective date 01 January 2024.

For this reporting period, we completed 137 of 137 requests within the IANA Services processing goal times (100%).

## Statistics

As outlined in the IETF–IANA SLA, ICANN is tasked with collecting and reporting on IETF-related statistics. ICANN has sub-contracted with its affiliate Public Technical Identifiers (PTI) to perform the IANA Services on its behalf and consistent with the SLA.

Below you will find the list of statistics as requested by the SLA, a description of what queue’s statistics are being provided to fulfill that deliverable and an analysis of the data for each queue. The actual charts representing the data can be found at <http://www.iana.org/reporting-and-stats/index.html>.

This month’s statistics were generated through running scripts against a ticketing system log database. The charts were generated using a Java program using the Jfreechart library.

The following types of charts have been defined for each queue for the reporting year 2024:

- Month to month comparison histogram of requests created/closed/open
- Month to month comparison histogram of age groups of closed tickets
- This month’s absolute age of closed requests
- Month to month comparison histogram of age groups of open tickets
- This month’s absolute age and current state of open requests
- Month to month comparison of mean, median and standard deviation for processing times of closed tickets
- Histogram for cumulative IETF requests for created/closed/resolved at the end of the reporting period and the year to date

### IESG approved documents (a)

*Requests in the “drafts-approval” queue begin at the time the IANA Services Operator receives a notification of an approval or intent to publish a document and end when the RFC-Editor has acknowledged receipt of the notification of completed actions by the IANA Services Operator.*

<b>QUEUE: DRAFTS-APPROVAL</b>	
Total closed tickets	16
Tickets with no IANA Registry Actions	5
IANA Services processing time goals met (14 days or less)	16/16 (100%)
Highest total processing days	29
Highest total IANA Processing days	10
Total open tickets	2
Highest total processing days to date	150
Highest total IANA Processing days to date	10

Tickets that required more IANA Processing time than the SLA prescribes (14 IANA Processing days or less) or that required more than 60 days of total processing time are described below.

TICKET DETAIL			
Status	Total Days	IANA Processing Days	Description
OPEN	150	9	Service.arpa registration needed coordination with the AS112 operators. Implemented this month. Waiting for sign-off.
OPEN	109	10	Changes made to details of uri.arpa registration request in independent-stream document. Implemented this month. Authors waiting for confirmation from a different stakeholder that the system is operational.

### Reference Updates (b)

*The requests in the “drafts-update-refs” queue begin at the time the RFC-Editor notifies IANA Services Operator of the RFC number assigned to a document that includes actions in the IANA Considerations section and ends when all references to the document are updated in the Protocol Parameter registries.*

QUEUE: DRAFTS-UPDATE-REFS	
Total closed tickets	16
IANA Services processing goals met (7 days or less)	16/16 (100%)
Highest total processing days	3
Highest total IANA Processing days	3
Total open tickets	5
Highest total processing days to date	1
Highest total IANA Processing days to date	1

Tickets that required more IANA Processing time than the SLA prescribes (7 IANA Processing days or less) or that required more than 60 days of total processing time are described below.

<b>TICKET DETAIL</b>			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### **Last Calls (c)**

*Requests begin at the time the IANA Services Operator receives a notification of Last Call from the IESG and ends with the IANA Services Operator submitting official comments to the IESG. Each request in the statistics represents a separate/individual Last Call, even if the Last Call is being repeated.*

<b>QUEUE: DRAFTS-LASTCALL</b>	
Total closed tickets	23
IANA Services processing goals met (see breakdown)	23/23 (100%)
Total open tickets	6

Last Call Time Frame	Total Requests	Completed within time goals
13 days	1	1
2 weeks	20	20
3 weeks	1	1
4 weeks	1	1

\*\* One ticket appeared to exceed its due date by a day, but it was completed on the last day of the Last Call.

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

<b>TICKET DETAIL</b>			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### **Evaluations (d)**

*Requests begin at the time the IANA Services Operator receives a notification of Evaluation from the IESG and ends with the IANA Services Operator submitting official*

comments to the IESG. Each request in the statistics represents a separate/individual Evaluation, even if the Evaluation is being repeated.

<b>QUEUE: DRAFTS-EVALUATION</b>	
Total closed tickets	31
IANA Services processing goals met (before the telechat)	31/31 (100%)
Total open tickets	3

\*\* For requests triggered by Conflict Reviews, the IANA Services Operator understands the due date to be the day before the telechat during which the document is to be discussed, provided the telechat will take place at least one week from issuance.

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

<b>TICKET DETAIL</b>			
Status	Total Days	IANA Processing Days	Description
OPEN	80	n/a	Removed from telechat agenda. Kept open because placing the document on a new agenda may not result in a new ballot.

### **Media (MIME) type requests (e, f)**

*The IANA Services Operator receives requests for registration of new Media types. Also received, but rarely, are modification and deletion requests for Media types. All of these are processed in the "iana-mime" queue. These requests begin with the receipt of an application for (or modification/deletion of a Media type and end with the request being resolved with a successful registration, removal or modification. In some cases, the requests are closed due to withdrawal of the request by the requester or via administrative closure, typically due to lack of response from the requester. We understand that MIME Media types are currently referred to as "Media Types." The queue "iana-mime," however, was named prior to this change.*

<b>QUEUE: IANA-MIME</b>	
Total closed tickets	10
IANA Services processing goals met (14 days or less)	10/10 (100%)
Highest total processing days	53
Highest total IANA Processing days	5
Average Expert days	21
Total open tickets	4

Highest total processing days to date	57
Highest total IANA Processing days to date	3

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

TICKET DETAIL			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### **New Port number requests (g)**

*The IANA Services Operator receives requests for assignment of new user port numbers. These requests are processed in the “iana-ports” queue. Port requests begin with the receipt of an application for a user port number and end with the request being resolved with a successful registration, withdrawn by the requester, or administratively closed.*

QUEUE: IANA-PORTS	
Total closed tickets	3
IANA Services processing goals met (14 days or less)	3/3 (100%)
Highest total processing days	46
Highest total IANA Processing days	5
Average total days	28
Average Expert days	6
Total open tickets	4
Highest total processing days to date	60
Highest total IANA Processing days to date	2

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

TICKET DETAIL			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### Modification to and/or deletions of Port number requests (h)

*The IANA Services Operator receives requests for modification of existing port numbers. Also received, but are rare, are deletion requests. Both of these are processed in the “port-modifications” queue. These requests begin with the receipt of a modification (or deletion) request and end with the request being resolved with a successful modification (or removal) or closed due to withdrawal or administrative closure.*

QUEUE: PORT-MODIFICATION	
Total closed tickets	4
IANA Services processing goals met (14 days or less)	4/4 (100%)
Highest total processing days	9
Highest total IANA Processing days	4
Total open tickets	1
Highest total processing days to date	12
Highest total IANA Processing days to date	1

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

TICKET DETAIL			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### New Private Enterprise Number (PEN) requests (i)

*All PEN (Private Enterprise Numbers) type requests are processed in an automated program that does not go through the IANA Services Operator’s ticketing system. The tool includes new, modification and deletion requests. The tool does not yet produce statistics similar to what is available for the other protocol parameter queues.*

QUEUE: PEN	
Total PENs assigned	134

### Modifications to and/or deletions of PEN requests (j)

QUEUE: PEN-MODIFICATION	
Total PENs modified	22

Total PENs deleted	0
--------------------	---

### **New TRIP ITAD Numbers (k)**

*The IANA Services Operator receives requests for assignment of new TRIP ITAD numbers. These requests are processed in the “iana-trip” queue. Requests begin with the receipt of an application for a TRIP ITAD number and end with the request being resolved with a successful registration, withdrawn by the requester, or administratively closed.*

<b>QUEUE: IANA-TRIP</b>	
Total closed tickets	0
IANA Services processing goals met (7 days or less)	n/a
Highest total processing days	n/a
Highest total IANA Processing days	n/a
Total open tickets	0
Highest total processing days to date	n/a
Highest total IANA Processing days to date	n/a

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

<b>TICKET DETAIL</b>			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

### **Requests relating to other IETF-created registries for which the request rate is more than five per month (l)**

*For those registries where there are more than 5 requests per month, the IANA Services Operator creates a separate queue for tracking those tickets.*

<b>QUEUE: MULTICAST</b>	
Total closed tickets	4
IANA Services processing goals met (14 days or less)	4/4 (100%)
Highest total processing days	19
Highest total IANA Processing days	4
Average Expert days	6

Total open tickets	0
Highest total processing days to date	0
Highest total IANA Processing days to date	0

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

<b>TICKET DETAIL</b>			
Status	Total Days	IANA Processing Days	Description
n/a	n/a	n/a	n/a

*Note: The IANA-PROT-PARAM queue is for miscellaneous requests that are not processed in a separate queue due to the lack of volume for any one type of request. These requests can require the first-come first-served policy, expert review, IESG approval or another review method. In the SLA, processing goals are determined by the type of request. However, for this queue there is no separation of request type.*

<b>QUEUE: IANA-PROT-PARAM</b>	
Total closed tickets	30
IANA Services processing time goals met (see breakdown below)	30/30 (100%)
Highest total processing days	71
Highest total IANA Processing days	6
FCFS completed within goal time (7 IANA processing days or less)	5/5
Expert Review/Specification Required completed within goal time (14 IANA processing days or less)	19/19
Early Allocation completed within goal time (14 IANA processing days or less)	1/1
IESG Approval completed within goal time (14 IANA processing days or less)	n/a
Modification completed within goal time (14 IANA processing days or less)	3/3
Admin closed/Withdrawn	2
Total open tickets	21
Highest total processing days to date	353

Highest total IANA Processing days to date	3
--	---

Tickets that required more IANA Processing time than the SLA prescribes or that required more than 60 days of total processing time are described below.

TICKET DETAIL			
Status	Total Days	IANA Processing Days	Description
OPEN	353	1	Waiting several months for document update after multiple extended expert delays.
OPEN	95 (two tickets)	2	Experts willing to approve using RFC 7120 process, with AD approval, but AD is checking on document stability and determining forward path.
OPEN	95	1	Experts unresponsive, but AD is placing this on hold (same I-D as above).
CLOSED	71	3	Multiple exchanges between expert and requester before the latter stopped responding.
OPEN	69	1	Requester is working with the expert and an SDO to update the relevant spec.
CLOSED	64	1	Multiple exchanges between experts and requester. Delay on experts' part.

## Deliverables

In accordance with the SLA, the IANA Services Operator is reporting on the following deliverables due within seven (7) months of implementation of the agreement for the reporting year 2024:

- 1) Provide publicly accessible, clear and accurate periodic statistics (continual)
- 2) Track and publicly report on a monthly basis (monthly report - continual)
- 3) Single points of failure documentation to the IESG (continual)

***Provide publicly accessible, clear and accurate periodic statistics***

See “Statistics” section of this report and also <http://www.iana.org/reporting-and-stats/index.html>.

### ***Track and publicly report on a monthly basis (monthly report)***

The SLA describes three items that the IANA Services Operator will provide monthly reports for. These items are outlined below along with a description of actions taken for each.

- a. Resource allocation statistics as described in SLA item 2 of the Reports section

In item 2 in the Reports section of the SLA, there is a detailed list of statistics to be produced for the monthly report. The agreed upon partial statistics are found in the “Statistics” section of this report.

- b. The utilization of all identified finite resources defined within Protocol Parameter registries

The IANA Services Operator is undertaking a project to review all registries to identify those that are finite and additionally those that are in danger of being exhausted. As of the end of this reporting period, no registries have been identified as being in danger of exhaustion. The IANA Services Operator will continue to report findings as needed.

- c. Efforts that have addressed single points of failure/expertise (see item 3 in Services section of the SLA)

## **Conclusions**

In August 2024, the IANA Services Operator cumulatively met 100% of the goal processing times over all requests.
